EXPERIENCE

PHP Developer Intern
Web4Business Solutions

📅 January 2023 – March 2023 📍 Delhi, INDIA

- Collaborated with the development team to build and maintain web applications using PHP and MySQL
- Developed a B2B portal using PHP and MySQL to connect suppliers and buyers and facilitate online transactions
- Developed a custom content management system using PHP and MySQL, allowing clients to easily manage their website content

PHP Developer Intern
Hedkey India pvt Ltd.

📅 Sept 2022 – Dec 2022 📍 Delhi, INDIA

- Collaborated with the development team to build and maintain web applications using PHP and MySQL
- Developed an institute website using PHP, MySQL, and Bootstrap to provide information about courses, admissions, and events

PROJECTS

World Export Mart
📅 January 2023 – March 2023

I developed a B2B portal called World Export Mart to connect suppliers and buyers. The portal boasts several features, including user management, product listings, and catalogue creation. This project demonstrates my expertise in PHP development and ability to create seamless and user-friendly experiences for businesses.

Sit Hub
📅 Sept 2022 – Dec 2022

I created an institutional website called Sithub, which served as an online platform for students and faculty to access information and services. The website's user-friendly interface allowed for seamless navigation and interaction, with implemented features such as user authentication, course management, and faculty management itemize

Tessle Life
🌐 **tessle-life.netlify.app/**

📅 Aug 2022 – Aug 2022

I created Tessle Life, a fully responsive website using HTML, CSS, JavaScript, and Bootstrap. This clone of the Tessle Life website includes multiple pages, including a single product page, an add-to-cart page, and a products page.
